**SHOWCASE** 2017 | INSIGHTS  
INSPIRATION  
INNOVATION

 **technologyone**  
Transforming business, making life simple

# Enterprise Vision

*A simplified enterprise approach to improving a provider's service delivery to clients*

# Health & Community Services: Industry disruption

Individualised funding

30,000 participants  
on NDIS will grow to

**400,000**

over the next decade

# Health & Community Services: Industry disruption

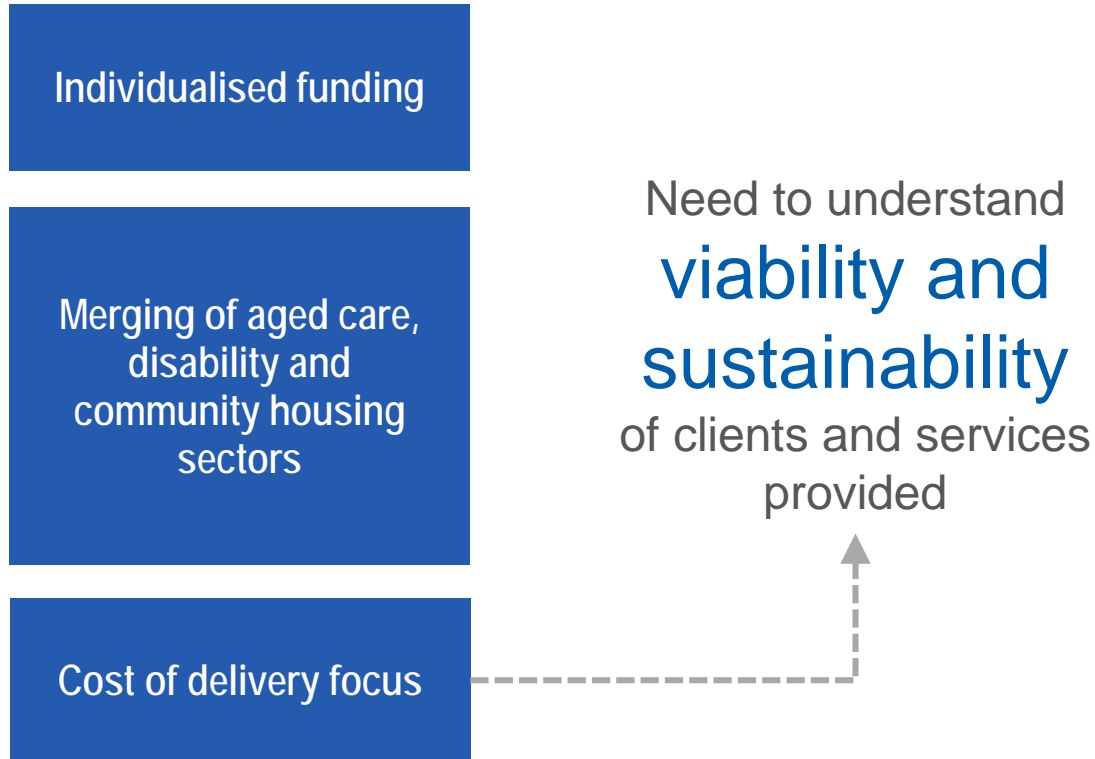

Individualised funding

Merging of aged care,  
disability and  
community housing  
sectors

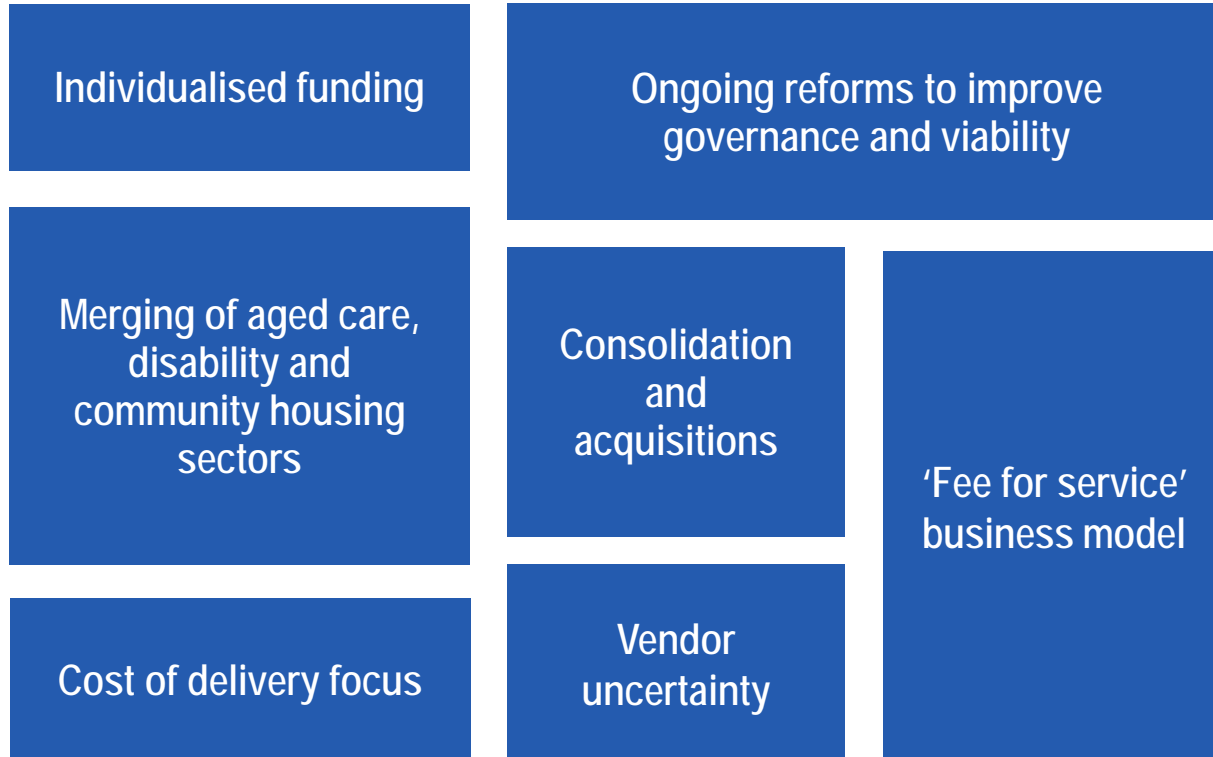

Organisations are  
**broadening**  
their service offerings to  
engage with their clients longer

# Health & Community Services: Industry disruption

# Health & Community Services: Industry disruption

# The software industry has not kept pace

---

Multiple disconnected legacy systems

Increased administrative requirement in relation to record keeping and acquittals

Clients and care workers want up-to-date information

Cloud Vs On-premise

# The opportunities

**A simplified integrated platform to get a single view of your client/patient and the services they consume.**

- Key client/patient management systems
- Clinical and medication management

**Cloud-based enterprise systems enable devolved information to front line staff**

- Reduction in infrastructure and operating costs
- Maximise staff access to key business and client information

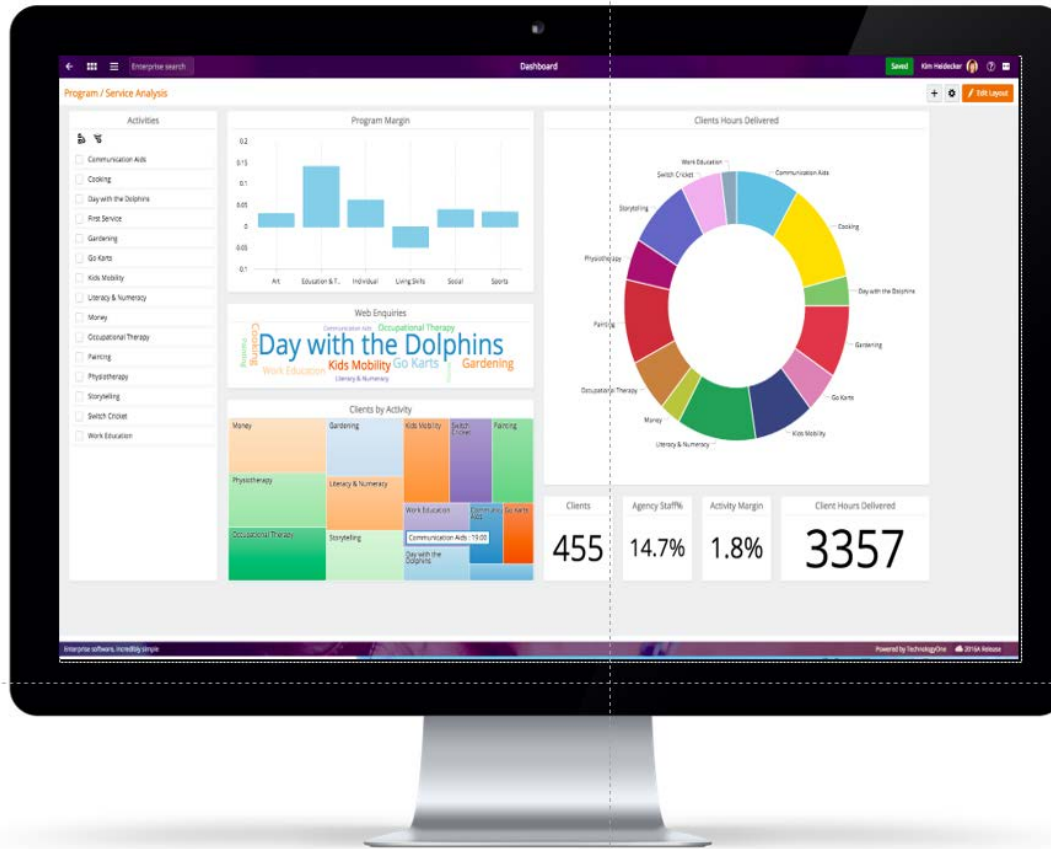

**Improved market intelligence through better suited systems, data and reporting**

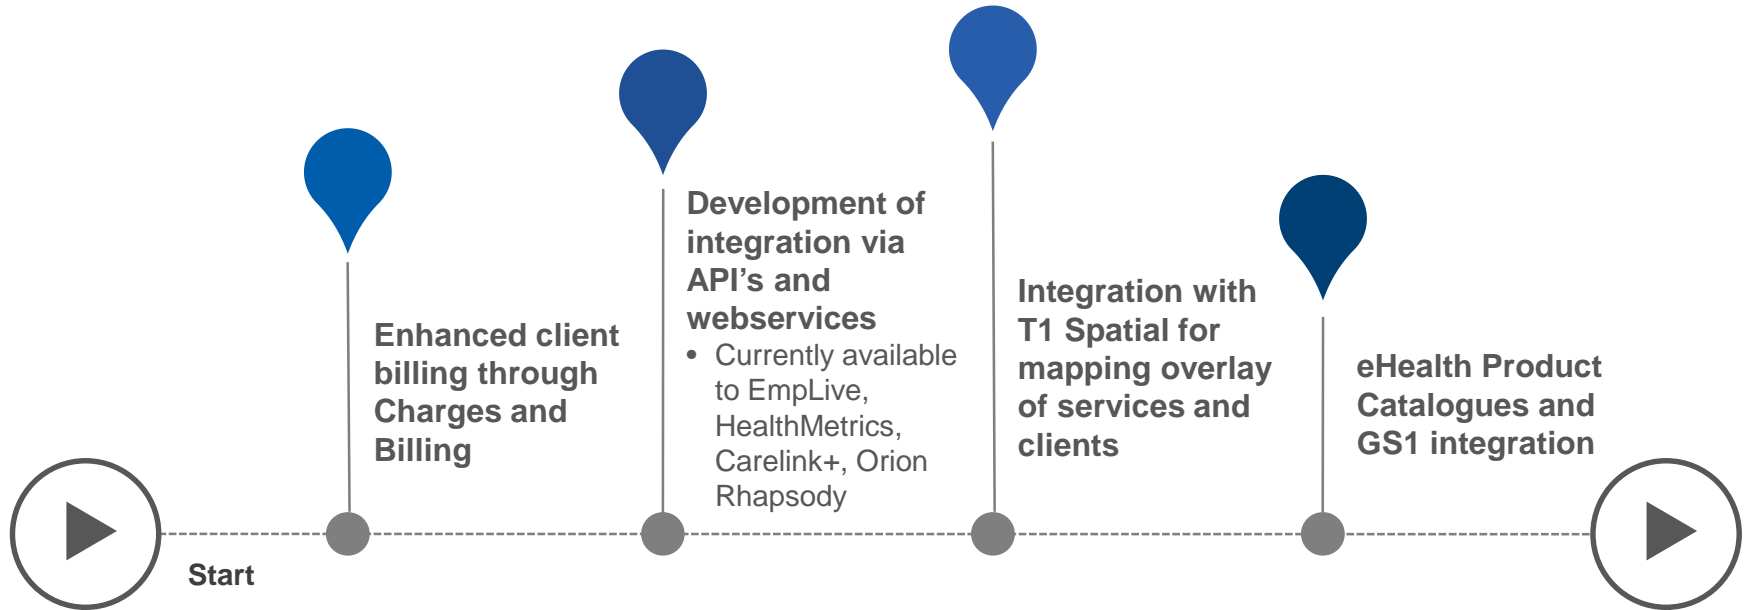

- Visibility on client and services
- Maximisation of funding/revenue streams
